

Cisco WebEx Meeting Center

Share ideas with anyone, anywhere, online.

Accelerate project cycles and drive business growth with online meetings.

Cisco WebEx Meeting Center

Incorporate ArkadinAnytime and Cisco WebEx Meeting Center into your business process and empower your workforce with first class collaboration tools. This hosted solution, combining audio and web conferencing, offers the benefit of Arkadin's customer services and its premium audio collaboration integrated with the leading Cisco WebEx web service. Reap the benefits of using Arkadin's premium quality audio conferencing alongside the WebEx web service with a single point of contact for implementation, support, account management and user training.

As your Collaboration Service Provider, Arkadin supports your company with a full site administration service, setting up new users and providing supporting materials. Whether you are a CIO, IT administrator or user, our highly responsive Arkadin Client Care Team is dedicated to answering all your day to day audio & web conferencing requests and queries.
